I found these in one of my folders. They were taken in 2010 on the north impoundment.

Melody,

Here are the San Jacinto pics I mentioned (the last two slides); or if you have some better ones please use those.

Thanks,

Hi Gary,

Here are a couple of draft maps for the Pasadena trip. Do you like this format ? Please give me any changes you would like.

I'm not sure about the gray lines on the US Oil map – I was trying to make the site pictures stand out.

Oh well, let me know what you think.

Thanks!

Melody
